DevLUp FSU

GBM #1

Welcome (back) to
DevLUp

Upcoming jams: Pirate Software #18 (17th-31st)
15 January, 202~~5~~6

**Welcome to
DevLUp at
FSU!**

Lesson Plan

- Who is DevLUp for?
- Latest Changes to the Club
- #showoff
- Check in with the Team
- Game Design Activity

Who is DevLUp FSU for?

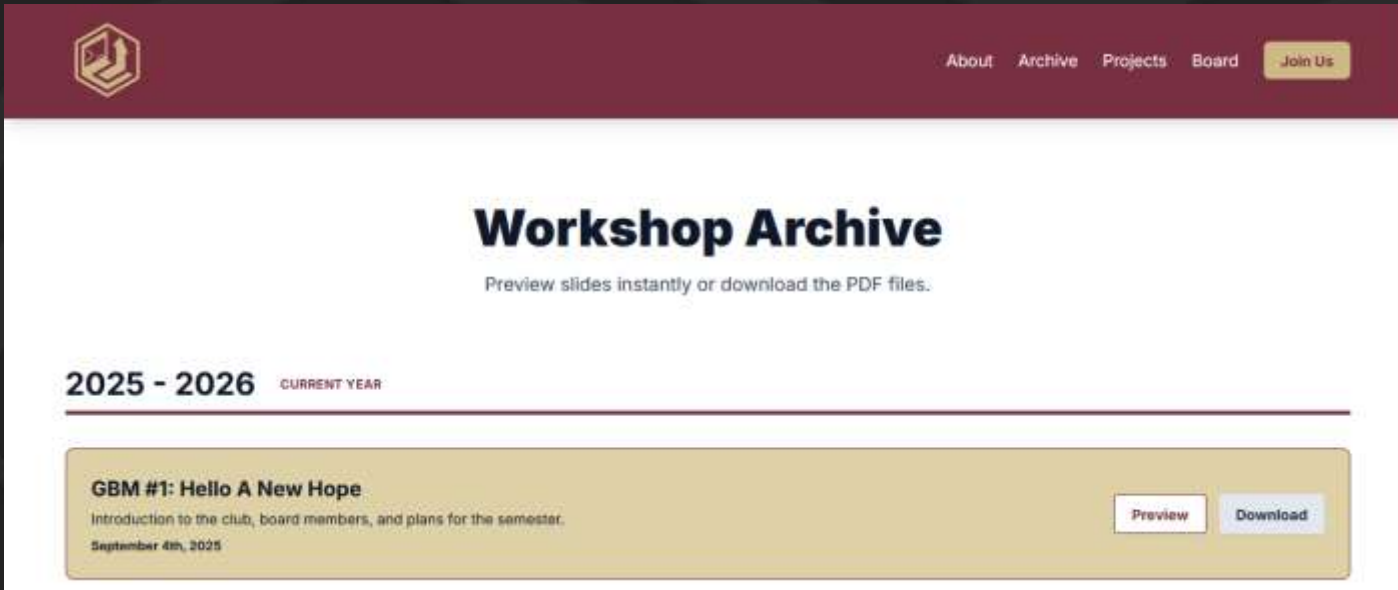

- YOU!!!!
- And everyone who has an interest in Game Development!
- More specifically programming, game design, 2D and 3D art, sound design, music composition and production, and more!

Figure 1: It's for you!!!!!!

Latest Happenings

- Stopped using Canvas (bit too complicated)
- Got a new website for archives (thanks Hailie!)
 - **Devlupfsu.netlify.app** (for now)

Where are we going?

Most meetings from here on **this term** are in the Pitch Room

around that corner over there

Exceptions to this are:

1/22

2/5

3/26

(we're figuring out rooms for these as we speak)

Board Recap + Retrospectives

read more about us in the discord's #introductions

Jake Younan - President

@.xloupex on 

Computer Science, Senior

I'm Jake and, in addition to making games, I enjoy fishing, kayaking, BBQ, sailing, volleyball, disk golf, and many other things!

Some of my favorite games are Breath of the Wild, Elden Ring, and Subnautica.

This spring, I'm excited about my new sailboat!

What's Jake Been Making?

Radio 6 - DevLUp Horror Jam '25

<https://agregory-vhs.itch.io/radio-six>

Calvin Whalen - Vice President

@cocoa0270 on 

Information, Graduate, he/him

Self-published point'n'click adventure game dev
under label Master Suite (on Steam now, hooray)

My favorite games are either Flash adventures no
one knows or weird 90's stuff no one knows

Also super into board games and will talk about
their design at any moment (maybe one of these
workshops, who knows)

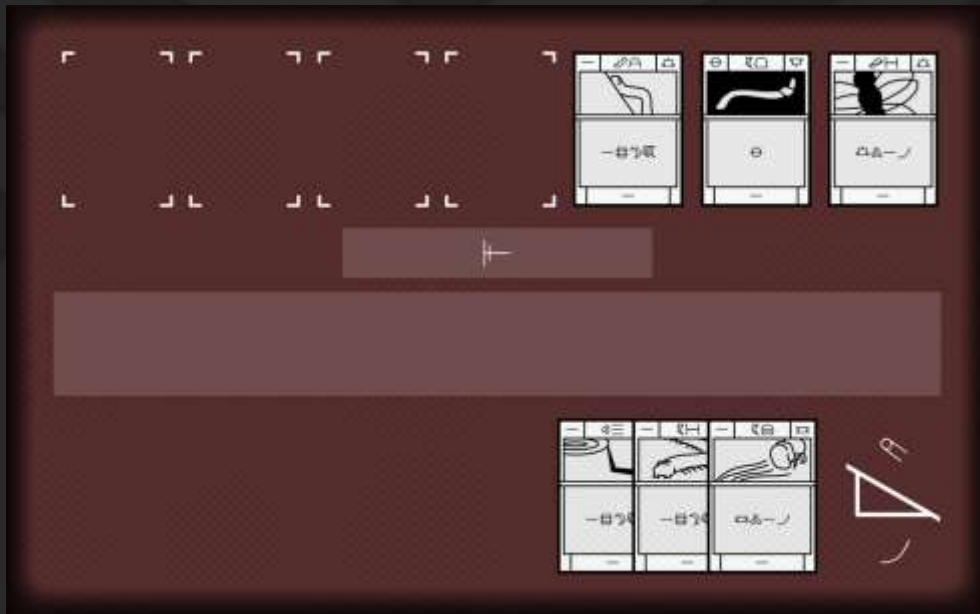

What's Calvin Been Making?

Provenance Unknown: Six Discs – a single-player card game where you have to decipher symbols based on how the game responds

First time working with a lot of reused functions, text reading, and randomization

Documentation is for you as much as it is for other people!

Marsh - Mr. Secretary

@mdelilleau70 on 

21 credit hours of c.s.(b.s.) and theatre, Sophomore, he/el

Gritty all-over-the-place pure-exploration dev, responsible for any number of Cauvin Whalen collabs and also *TOUR* and *Amareica*.

Speaks Romanian! Wrote 200+ stories, plays, poems about a “Mr. and Mrs. Rat” in 2025 - put that on my resume! Parents moving to China! Invented a damn good pumpkin meat pie! Will probably go to architecture school, but is too poor and happy to make the transition a.t.m. Game design will save the world! Or not...

What's Marsh Been Making?

Made a game ("Centrifuge 2") in 5 hours as a lil christmas joint for my brother

Made the soundtrack for that Provenance Unknown game Whalen was just talking about.

Working presently on Jordan-set realtime subway simulation slash bondage angel epic "METROU/sexual" at a close-to-full-time trot (aiming for, starting next week, 41 hours a week)

Morals: Work! Try Blender for grayboxing! Creative block is a tools problem. Resolve inner forces and slough off all that is good in this world.

David Berger - Treasurer

@stillnotbob on 

Computer Science/Behavioral Neuroscience,
Junior™, he/him

Hey y'all! I'm a programmer and I've dabbled in Unreal, Godot, and Unity while working on Edge of Chaos, Toasty Time, OrcAttack, Orbital Odyssey, Radio Six, and more!

I enjoy solving technical problems and hope to pursue a PHD in Neural Engineering.

In my free time, I enjoy launching rockets and playing games like Portal 2 and Control.

What's David Been Making?

Last game jam was really creatively fulfilling for me because I was able to develop my core skills in programming and also venturing into technical art.

I've also become much more comfortable working in Unity, which previously was my weakest game engine of the big three.

Outside of Game Dev, I've been experimenting with new distros and starting to learn Rust.

Hailie Tucker - Social Chair

@halfire1127 on 

Computer Science, Junior, she/her

@hailiethhuman ← Insta 

I'm a programmer with my experience focused on Unity, HTML, and Blender. I've contributed to Orbital Odyssey  and Prawemit.

I like going to the gym , diet coke, animals, hanging out with friends, socializing , throwing a football , and I have a sweet tooth .

Currently I am partial to Dead by Daylight , Phasmophobia , and Fortnite .

What's Hailie Been Making?

1. New DevLUp Website
2. Spider Sol
3. VR Pickleball
4. 3d Assets on my website

Yusong - Marketing Chair

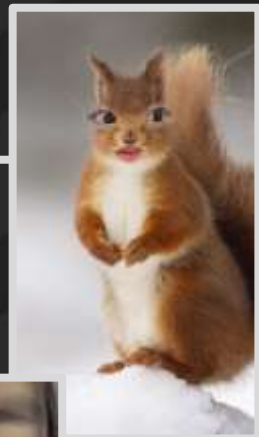

@ysongg on 

Computer Science, Sophomore, she/her

Hi! I'm a programmer. My previous experience with game development was mainly with Unity 2D, specifically, I have been apart of projects like Prawmite and NutriQuest.

Some of my favorite games are Terraria, Stardew valley, raft, and some cooking simulators.

Besides playing games and making games, my biggest hobby is crocheting. I have been crocheting for about a year, and I really like making plushies and clothes.

What's Yusong Been Making?

Nutriquest!

The game jam poster!

A game called 'Prawmite' with Arcvale

VR Projects for class

Crochet

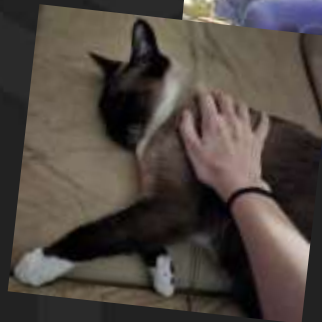

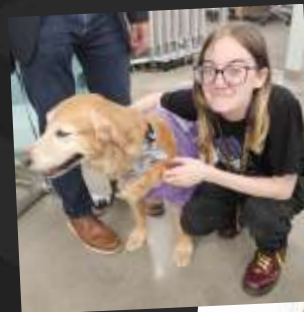

Ares - Creative Chair

@cherricola on 

*Computer Programming & Applications;
Senior?; he/him*

Hey, I'm Ares! I'm a programmer, pixel / 2D / 3D artist, 2D / 3D animator, writer, voice actor, musician, and D&D DM! My primary focus is on improving accessibility in gaming.

My favorite games are Limbus Company, Lethal Company, Stardew Valley, and Project Zomboid!

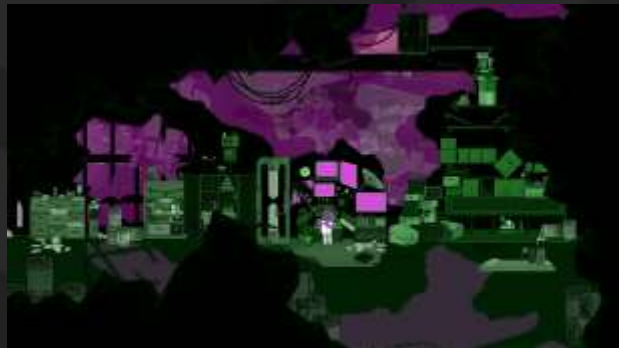

What's Ares Been Making?

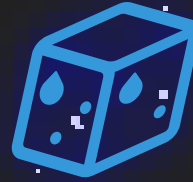

Projects with Arcvale (most of my time):

- *Bridge Weaver* (2D puzzle game; programmer)
- *Prawemit* (2D platformer; artist)

Other projects:

- Radio Six (with several other eboard members and devs <3)
- Learning web development!!
 - Making a simple website that stores and displays information about Limbus Company characters
 - Made a small single-page project about Zelda
 - ... web dev job! Oh boy.

 *winter edition* 

 showoff

Our Meeting Schedule:

Date	GBM	GBM Title	Secondary Event	Presenter
9 Jan		(No Meeting)	(Involvement fair?)	
15 Jan	1	Intros, Icebreakers, and Retrospectives	In the Co-Lab	Everyone
22 Jan	2	Unity 201 (what new things?)	In the Pitch Room ↓	Jake
29 Jan	3	2D Art -- Pixel and ...not pixel?		Calvin & Ares
5 Feb	4	2D Animation -- Frames and Tweening	(May have to move)	Calvin & Ares
12 Feb	5	Making Music for Non-Musicians	LoveLUp Positive Jam (13-15)	Marsh
19 Feb	6	Blender 201 -- Tidbits	(hopefully)	Hailie
26 Feb	7	Unity 202 -- Lighting		Jake & Marsh
5 Mar	8	Prototyping Levels		Marsh
12 Mar	9	1 HOUR LEVEL DESIGN JAM		David
19 Mar		Spring Break		
26 Mar	10	Sound Design and the Art of Foley		Yusong
2 Apr	11	Unity 203 -- A*, Agents and Navmesh		Jake & Marsh
9 Apr	12	Online Portfolios (HTML Basics) -WICS collab		Hailie
16 Apr	13	Writing For Games		Screenwriting Club
23 Apr	14	Year's Out Celebration!		Everyone

LoveLUp Positive Jam

- It's a game jam
- Around Valentine's Day (doesn't have to be romance)
- Loads of Florida schools
 - (we hope)

February Somethingth

GAME DEV EXHIBITION

FEBRUARY 17TH TH 7 P M

LOCAL GAMES PRESENTED INCLUDE:

- SCRAT: PIXEL ART CAT SIM
- DOOMFISH: PIXEL ART ROUGELITE
- DAYTOWN BOOGIE: COMIC BOOK, VISUAL NOVEL

LOCATION: The VRcade

LOOKING FOR GAME DEVS,
ILLUSTRATORS, COMPOSERS AND
VENDORS FOR THIS EVENT

(Trifold)

Leah: "Baby we have to go if I'm going to get to the..."

Next Week's Workshop: Unity 201

- More in-depth coverage of Unity
- Topics we will cover:
 - Editor
 - Importing assets
 - Doing a bit of code
 - Making cool junk 🤖🤖🤖

Game Design Activity!

Designing Engaging Gameplay Snapshots

- Get in groups of 3-5 people each
- Come up with a rough idea of an eye catching game that is somewhat related to your teams theme (Doesn't need to be polished, just something that might look good)
- Then we are going to create eye catching, engaging gameplay screenshots like you would see on a games store page
 - You can create these however you like (draw, digital, ai gen, combination). We do have crayons. You can also create these using online clip art in kind of a collage
- After ~20 minutes each group will briefly share their Gameplay Snapshots with the club

REAL GAME EXAMPLES
